

Project Design Phase

Problem – Solution Fit Template

Date	JUNE 2026
Team ID	
Project Name	Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites in Tableau
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- ☐ Solve complex problems in a way that fits the state of your customers.
- ☐ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ☐ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ☐ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ☐ Understand the existing situation in order to improve it for your target group.

Purpose / Vision

Define CS, fit into 1. CUSTOMER SEGMENT(S) CS Cultural Data Analysts – Professionals who work with global datasets to support heritage research, content story-telling, or planning. UNESCO Policy Advisors – Technical experts (linked with permitting, preservation, site management, or funding allocation). Heritage Educators – Professionals, guides or volunteers seeking engaging accounts, and visual tools for teaching global history. NGO Advocates & Cultural Journalists – Communicators who translate complex cultural data into compelling narratives.	6. CUSTOMER CC - Limited time, especially in academic or nonprofit settings - Restricted pool of team members requiring clear, accessible tools - Scarcity of gaps among entire education or NGO staff - High expectations for engaging presentations or public storytelling	5. AVAILABLE SOLUTIONS AS - Download and citing the UNESCO CDB manually - Creating static charts in Excel or PowerPoint - Using Wikipedia summaries or Google Maps for visual aid - Working with outdated or niche GIS software	Expose AS, AS
	2. JOBS-TO-BE-DONE / PROBLEMS JBP Global Trend Analysis – Understand how cultural, natural, and mixed sites are distributed globally and how trends have evolved. Preservation Priority Mapping – Identify regions or site types that may be underrepresented or vulnerable. Visual Storytelling – Turn complex data tables into compelling narratives for awareness, funding, and education. Cross-Criteria Comparison – Evaluate which inscription criteria (i-iv) are most common across types, countries, or decades. Academic Research – Enable faster pattern discovery for future or geographic heritage research.	9. PROBLEM ROOT CAUSE RC - Southern and Eastern datasets (e.g., country names) very missing types - Lack of ready-made visualizations tailored to heritage fields - No easy way to track inscription trends over time or by type - Absence of tools for comparison across countries or criteria - Time pressure + limited tech expertise	
3. TRIGGERS TR Requests from UNESCO or partner NGOs for visual data support Global conference presentations needing time-bound visual trends Cultural reports requiring comparison between nations or site types Research projects or funding proposals tied to data representation	10. YOUR SOLUTION SL The Tableau-based dashboard offers: - A clear, interactive global map of sites with region, type, and year filters - Time-series visuals of site inscriptions per year - Country and continent breakdowns for competitive benchmarking - Filtering by inscription criteria and type (Cultural/Natural/Mixed) - Ready-to-export results for use in datasets, conferences, or reports - Open access via Tableau Public for maximum reach	8. CHANNELS of BEHAVIOUR CH 8.1 ONLINE - Research via UNESCO portal, Tableau Public, or academic databases - Public open-source, and GIS Desktops, Maps, and online servers - Save dashboard as Tableau in online cloud storage 8.2 OFFLINE - Present at symposiums, cultural seminars, heritage workshops - Deliver reports to heritage departments or cultural institutions - Collaborate through university heritage studies departments	Identify strength TR & EM
4. EMOTIONS: BEFORE / AFTER EM Before: Confused, time pressure, overwhelmed by large datasets After: Empowered, excited, efficient, proud of producing clear insights
